Following last year's successful launch of the first ultra-slim big zoom FinePix F70EXR, Fujifilm is pleased to announce the FinePix F80EXR, an updated model with a new high resolution 12 megapixel Super CCD EXR sensor, 720p high definition video capture, exciting new features and a larger high contrast LCD screen. Based on the same award-winning Super CCD EXR switchable sensor technology as its predecessor, the FinePix F80EXR delivers class-leading image quality in a wide variety of shooting conditions.

Key features at a glance:

- Super CCD EXR 1/2" 12 Megapixel switchable sensor
- EXR Priority Modes and EXR Auto Modes
- Fujinon 10x optical zoom (27mm - 270mm)
- **NEW** 3.0", 230k dots High Contrast LCD Monitor
-
